2023 Community Vision

1. **Strong & Focused Mission**
Rally the community around desired work streams by creating a centralized space to attract more community involvement and accelerate their impact.

2. **Cultivation of Inclusiveness**
Harvest the wide knowledge of the community to further create an environment of independence and assist in crafting ways of working that resolve disagreements and dissolves roadblocks quickly.

3. **Inspiration, Creativity, & Collaboration**
Encourage sustained focus, shared problem-solving, remove boundaries and support all ideas (no idea is to impossible).

4. **Failure Is Not Fatal/Recognize Success Often**
Try new approaches, create new capabilities, and identify inflection points quickly-then pivot when needed. Call out, reward, and celebrate the wins of the community members often.
